

**AMENDMENTS TO THE CLAIMS**

**This listing of claims will replace all prior versions and listings of claims in the application:**

**LISTING OF CLAIMS:**

1. (currently amended): A view control system, ~~characterized in including comprising:~~  
a-log recording means for recording a log of ~~an~~ a viewer;  
a-sending-out means for sending out a view-controller for controlling viewing of contents from a sending-out side of the contents to a viewing side based upon said log of said viewer; and  
a-view controlling means for controlling viewing of the contents based upon said view-controller and said recorded log.
2. (currently amended): The view control system according to claim 1, ~~characterized in that~~ wherein the view-controller has controlling conditions and controlling details ~~described, and~~ said controlling conditions and controlling details are being applied until a start time point of viewing the contents.
3. (currently amended): The view control system according to ~~Claim~~ claim 1, ~~characterized in that~~ wherein the view-controller has viewing conditions ~~described, and~~ said viewing conditions are being applied after viewing the contents.

4. (currently amended): The view control system according to ~~Claim~~claim 1, ~~characterized in that wherein~~ the view-controller has controlling conditions and controlling details described, ~~and~~ said controlling conditions and controlling details ~~being~~are applied while a program of the contents is viewed.

5. (currently amended): The view control system according to ~~Claim~~claim 1, ~~characterized in that wherein~~:

the view-controller is ~~operable to a controller for permitting or restraining both permit or restrain~~ the viewing of the contents in a case where a predetermined condition was satisfied at least one time before viewing the contents; and

the view controlling means is configured to detect ~~the~~a log satisfying said predetermined condition from among ~~the~~ recorded logs based upon said view-controller and to permit the viewing of the contents in a case where ~~at the predetermined log satisfying said predetermined condition~~ the predetermined log satisfying said predetermined condition has been detected.

6. (currently amended): The view control system according to ~~Claim~~claim 1, ~~characterized in that wherein~~:

the view-controller is ~~operable a controller for permitting or restraining to both permit or restrain~~ the viewing of the contents in a case where a predetermined condition is satisfied ~~whenever~~when the contents are viewed; and

the view controlling means is configured to detect ~~the~~a log satisfying said predetermined condition from among ~~the~~ recorded logs based upon said view-controller and to permit or

restrain the viewing of the contents in a case where ~~the a~~ predetermined log satisfying said predetermined condition has been detected.

7. (currently amended): The view control system according to ~~Claim~~ claim 1, ~~characterized in that~~ wherein:

the view-controller is ~~operable a controller for allowing to allow~~ a log of a predetermined permission or restraint to be recorded after viewing the contents; and

the view controlling means is configured to record said log of said predetermined permission or restraint based upon said view-controller after viewing the contents.

8. (currently amended): The view control system according to ~~Claim~~ claim 1, ~~wherein~~ characterized in that:

the view-controller is ~~a controller for~~ operable to both give giving permission ~~effor~~, or restraint ~~teof~~ a predetermined matter while the contents are viewed; and

the view controlling means is configured to give permission ~~effor~~, or restraint ~~teof~~ a predetermined matter based upon said view-controller while the contents are viewed.

9. (currently amended): The view control system according to ~~Claim~~ claim 1, ~~wherein~~ characterized in that:

the view-controller is ~~a controller for~~ operable to replacingsreplace a condition ~~set at a~~ the time of an initial setting with ~~the other a~~ replacement condition; and

the view controlling means is configured to detect ~~the a~~ log satisfying the ~~other~~ replacement condition, which replaces the condition set at the time of an initial setting,

based upon said view-controller and to permit the viewing of the contents in a case where ~~the~~  
log satisfying the replacement condition has been detected.

10. (currently amended): The view control system according to ~~Claim~~claim 1,  
~~characterized in including further comprising:~~

~~a~~ means for sending out a log record-controller for allowing a specific log to be recorded;  
~~and wherein~~

the a-log recording means for recording the log of the viewer is based upon said log  
record-controller.

11. (currently amended): A view control method, ~~characterized in including the steps~~  
~~of comprising:~~

recording a log of ~~an~~ a viewer in a receiver side;

sending out a view-controller for controlling viewing of contents from a sending-out side  
of the contents to a receiver based upon said log of said viewer; and

controlling the viewing of the contents based upon said view-controller and said recorded  
log in the receiver side.

12. (currently amended): The view control method according to claim 11, ~~characterized~~  
~~in further comprising:~~

applying the view-controller has controlling conditions and controlling details described;  
said-controlling conditions and controlling details of the view-controller being applied until a  
start time point of viewing the contents.

13. (currently amended): The view control method according to ~~Claim~~claim 11,  
~~characterized in that further comprising:~~

~~the view-controller has viewing conditions described, said applying~~ viewing conditions  
~~of the view-controller being applied~~ after viewing the contents.

14. (currently amended): The view control method according to ~~Claim~~claim 11,  
~~characterized in that further comprising:~~

~~applying the view-controller has~~controlling conditions and controlling details ~~of the~~  
~~view-controller described, said controlling conditions and controlling details being applied~~ while  
a program of the contents is viewed.

15. (currently amended): The view control method according to ~~Claim~~claim 11,  
~~characterized in that further comprising:~~

~~the view-controller is a controller for~~permitting or restraining, ~~by the view-controller,~~ the  
viewing of the contents in a case where a predetermined condition was satisfied at least one time  
before viewing the contents; and

~~the view control method includes a step of, in the receiver side,~~detecting in the receiver  
side ~~the~~ a log satisfying said predetermined condition from among ~~the~~ recorded logs based upon  
said view-controller; and

te-permitting the viewing of the contents in a case where ~~a~~ the log satisfying said  
predetermined condition ~~log~~ has been detected.

16. (currently amended): The view control method according to ~~Claim~~claim 11,  
~~characterized in that~~further comprising:

~~the view-controller is a controller for-permitting or restraining, by the view-controller, the~~  
viewing of the contents in a case where a predetermined condition is satisfied ~~whenever~~when the  
contents are viewed; and

~~the view-control method includes a step of, in the receiver side, detecting in the receiver~~  
side the log satisfying said predetermined condition from among ~~the~~ recorded logs based upon  
said view-controller; and

~~to-permitting~~ or ~~restraining~~ the viewing of the contents in a case where ~~a~~the log satisfying  
said predetermined condition~~log~~ has been detected.

17. (currently amended): The view control method according to ~~Claim~~claim 11, further  
comprising~~characterized in that:~~

~~the view-controller is a controller for-allowing, by the view-controller, a log of a~~  
predetermined permission or restraint to be recorded after viewing the contents; and

~~the view-control method includes a step of, in the receiver side, recording said log of said~~  
predetermined permission or restraint based upon said view-controller after viewing the contents.

18. (currently amended): The view control method according to ~~Claim~~claim 11, further  
comprising~~characterized in that:~~

~~the view-controller is a controller for-giving permission of, or restraint to a predetermined~~  
~~matter while the contents are viewed; and~~

~~the view control method includes a step of, in the receiver side, giving permission foref, or restraint ~~to~~of a predetermined matter, by the view-controller, based upon said view-controller while the contents are viewed.~~

19. (currently amended): The view control method according to ~~Claim~~claim 11, ~~characterized in that~~further comprising:

~~the view-controller is a controller for-replacing, by the view-controller, a condition set at a~~the time of an initial setting with ~~the-othera~~ replacement condition; and

~~the view control method includes a step of, in the receiver side, detecting the~~ log satisfying the ~~other~~replacement condition, which replaces the condition at the time of an initial setting, based upon said view-controller to permit the viewing of the contents in a case where ~~its~~the log satisfying the replacement condition has been detected.

20. (currently amended): The view control method according to ~~Claim~~claim 11, ~~characterized in including the steps of~~further comprising:

sending out a log record-controller for allowing a specific log to be recorded to the receiver; and

recording the log of the viewer based upon said log record-controller in the receiver side.

21. (new): The view control system according to claim 1, wherein:

the log of the viewer comprises a listing of viewed content identified individually by title and a corresponding start time and finish time of when each content was viewed by the viewer.

22. (new): The view control system according to claim 1, wherein:

the log of the viewer comprises a listing of programs and corresponding start times and finish times of when each program was viewed by the viewer, and a listing of commercials and corresponding start times and finish times of when each commercial was viewed by the viewer.
